

# MAKE SURE YOU GET YOUR “CUT”

- Are you getting a cut?
- Five Pillars of Shearing
- Four Pillars of Woolhandling

**FREE  
POSTERS**

Professional shearers know that a well maintained handpiece with sharp combs and cutters will increase tallies and make their job easier. Yet an estimated 80 per cent of professional shearers do not get a true cut.

AWI worked with the industry's best shearing contractors and trainers to produce the "Are You Getting a Cut?" poster. It shows how the professionals keep their handpieces in good working order and their combs and cutters sharp.

The "Are you getting a cut?" poster is backed up by two other AWI "Pillar Posters": The "Five Pillars of Shearing" and the "Four Pillars of Woolhandling". All three posters are laminated and ready to display in the woolshed.

**AWI is committed to the safety and productivity of shearing and woolhandling professionals around the nation, to support the future of woolgrowing.**

Make sure you're not one of the 80 per cent not getting a true cut. Order a free set of three Pillar Posters for your own shed, or the next shed you're heading to: Call the AWI Helpline on 1800 070 099 or fill out and fax this page to AWI at (02) 8295 4155.
